PROFESSIONAL PROFILE

Junior Full Stack Software Developer with extensive knowledge in multiple environments such as HTML5, CSS3, and vanilla JavaScript, with experience in creating dynamic, modern, and optimized websites using technologies like React.js, TypeScript, Astro, among others, as well as backend environments using Node.js, Express.js, Java, and databases such as MongoDB and PostgreSQL.

Passionate about staying at the forefront of new technologies and best practices that allow me to improve day by day as a fullstack developer.

I consider myself a disciplined, committed, and responsible person with assigned tasks, skilled and receptive to recommendations that allow me to improve.

PROFESSIONAL EXPERIENCE

Full-Stack Developer Freelance

Independent • Medellín, Colombia

Jul. 2023 - Present

I am responsible for developing and maintaining modern web applications using Next.js and React.js as the main technologies.

Implementing web application solutions from scratch that are scalable and high-performance.

- Technical skills
 - Extensive mastery of **React.js** and its core fundamentals
 - Extensive knowledge of **TypeScript**
 - Solid command of **Next.js**
 - Knowledge and use of design libraries such as **shad/cn** and **NextUI**
 - Integration of **RESTful APIs**

Junior Developer

Talent.com • Medellín, Colombia

Mar. 2021 - Feb. 2023

I was responsible for creating web crawlers that extracted and analyzed information using vanilla **JavaScript**, **PHP**, and **XML**.

I had the opportunity to create templates with reusable base code, which increased team performance by 40%.

- Technical specifications
 - Advanced mastery of vanilla JavaScript
 - **AJAX** requests with APIs and JSON files
 - Optimized and reusable algorithm structuring in JavaScript

EDUCATION

Technician Software Developer

CESDE University • Medellín, Colombia

Jan. 2019 - Dec. 2020
